1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents and employees, and agrees to save them harmless from any and all claims, demands, lawsuits or liability whatsoever for any loss, damage, injury or death, including all costs and expenses incident thereto, by reason of the foregoing. any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. 1.11 SEVERABILITY. If any section, provision, or part of the Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of the Code of Ordinances as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

(Code of Iowa, Sec. 364.22[3])

3.02 ENVIRONMENTAL VIOLATION. A municipal infraction which is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22[1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.
2. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person not engaged in the industrial production or manufacturing of grain products.
3. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person engaged in such industrial production or manufacturing if such discharge occurs from September 15 to January 15.

3.03 PENALTIES. A municipal infraction is punishable by the following civil penalties:

(Code of Iowa, Sec. 364.22[1])

1. Standard Civil Penalties.
 - A. First offense – not to exceed \$750.00
 - B. Each repeat offense – not to exceed \$1,000.00

Each day that a violation occurs or is permitted to exist constitutes a repeat offense.

2. Special Civil Penalties.
 - A. A municipal infraction arising from noncompliance with a pretreatment standard or requirement, referred to in 40 C.F.R. §403.8, by an industrial user is punishable by a penalty of not more than \$1,000.00 for each day a violation exists or continues.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than \$1,000.00 for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within twenty-four (24) hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight (8) hours.

3.04 CIVIL CITATIONS. Any officer authorized by the City to enforce this Code of Ordinances may issue a civil citation to a person who commits a municipal infraction. A copy of the citation may be served by personal service as provided in Rule of Civil Procedure 1.305, by certified mail addressed to the defendant at defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in Rule of Civil Procedure 1.310 and subject to the conditions of Rule of Civil Procedure 1.311. A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. 3.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22[8])

3.06 CRIMINAL PENALTIES. This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal penalties are also provided for the violation. Nor does it preclude or limit the authority of the City to enforce the provisions of this Code of Ordinances by criminal sanctions or other lawful means.

8.04 Amounts Eligible for Exemption

8.05 Limitations

8.06 Applications

8.07 Approval

8.08 Exemption Repealed

8.09 Dual Exemptions Prohibited

8.01 PURPOSE. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Actual value added” means the actual value added as of the first year for which the exemption is received.
2. “Distribution center” means a building or structure used primarily for the storage of goods which are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.
3. “New construction” means new buildings and structures and includes new buildings and structures which are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure which does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from the City Council of the City upon the recommendation of the Iowa Department of Economic Development.
4. “Research-service facilities” means a building or group of buildings devoted primarily to research and development activities, including, but not limited to, the design and production or manufacture of prototype products for experimental use, and corporate research services which do not have a primary purpose of providing on-site services to the public.
5. “Warehouse” means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the *Code of Iowa*, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses,

and distribution centers is eligible to receive a partial exemption from taxation for a period of five (5) years.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added which is eligible to be exempt from taxation shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, seventy-five percent (75%)
2. For the second year, sixty percent (60%)
3. For the third year, forty-five percent (45%)
4. For the fourth year, thirty percent (30%)
5. For the fifth year, fifteen percent (15%)

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

(Code of Iowa, Sec. 427B.4)

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.
2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least thirty (30) days after such hearing, the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

(Code of Iowa, Sec. 427B.6)

36.02 Definitions

36.03 Cleanup Required

36.04 Liability for Cleanup Costs

36.05 Notifications

36.06 Police Authority

36.07 Liability

36.01 PURPOSE. In order to reduce the danger to the public health, safety, and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove, or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent, or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[4])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or Federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.
4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused that that person.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the Police Chief of the occurrence of a hazardous condition as soon as possible but not later than six (6) hours after the onset of the hazardous condition or discovery of the hazardous condition. The Police Chief shall immediately notify the Department of Natural Resources.
2. Any other person who discovers a hazardous condition shall notify the Police Chief, who shall then notify the Department of Natural Resources.

36.06 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and

2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any law enforcement officer issued under this section.

CHAPTER 46

MINORS

46.01 Curfew

46.02 Cigarettes and Tobacco

46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
 - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.
 - B. “Knowingly” means knowledge which a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
 - C. “Minor” means any unemancipated person under the age of eighteen (18) years.
 - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room which is not designed, set aside or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six (6) hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
 - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys and sidewalks dedicated to public use; and also includes such parts of buildings and other premises whether publicly or privately owned which are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has

access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

F. “Responsible adult” means a parent, guardian or other adult specifically authorized by law to have custody or control of a minor.

(Subsection F – Ord. 266 – Feb. 20 Supp.)

2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of 10:00 p.m. on Sunday, Monday, Tuesday, Wednesday, and Thursday evenings to 5:00 a.m. of the following day and between the hours of 12:00 midnight on Friday and Saturday evenings to 5:00 a.m. of the following morning.

3. Exceptions. The following are exceptions to the curfew:

A. The minor is accompanied by a responsible adult as defined in 46.01(1)(F) or an adult at least twenty-one (21) years of age authorized by a parent of such minor to take said parent’s place in accompanying said minor for a designated period of time and purpose. Such permission authorization shall be in written form, shall specify the particular reason or event that the minor is permitted to be with the authorized adult, signed and dated by the minor’s parent within twenty-four (24) hours of the beginning of the period for which the authorization is given which period shall not be longer than seventy-two (72) hours except for extenuating circumstances clearly stated, carried by the authorized adult and shall be presented to a peace officer upon request.

(Ord. 266 – Feb. 20 Supp.)

B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.

C. The minor is present at or is traveling between home and one of the following:

(1) Minor’s place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end or before the beginning of work;

(2) Minor’s place of religious activity or, if traveling, within one hour after the end or before the beginning of the religious activity;

(3) Governmental or political activity or, if traveling, within one hour after the end or before the beginning of the activity;

(4) School activity or, if traveling, within one hour after the end or before the beginning of the activity;

(5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end or before the beginning of the activity.

D. The minor is on an emergency errand for a responsible adult;

- E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.
- 4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor's presence falls within one of the above exceptions.
- 5. Enforcement Procedures.
 - A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.
 - B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any nonsecured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.
 - C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.
 - D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.
- 6. Penalties.
 - A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.
 - B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a municipal infraction.
 - C. Minor's First Violation. In the case of a first violation by a minor, the law enforcement officer shall give the minor a written warning, which states

that any subsequent violation will result in full enforcement of the curfew ordinance against the responsible adult and the minor, with applicable penalties, or, at the law enforcement officer's discretion, may issue the minor a citation for a first violation.

D. Minor's Second Violation. For the minor's second and subsequent violations of any of the provisions of this section, the minor is guilty of a municipal infraction.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under eighteen (18) years of age to smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products, or cigarettes. Possession of cigarettes or tobacco products by a person under eighteen years of age shall not constitute a violation of this section if said person possesses the cigarettes or tobacco products as part of the person's employment and said person is employed by a person who holds a valid permit under Chapter 453A of the *Code of Iowa* and lawfully offers for sale or sells cigarettes or tobacco products.

(Code of Iowa, Sec. 453A.2)

[†] **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

E. Assessment of City Costs. A statement that if the nuisance or condition is not abated as directed and no request for hearing is made within the time prescribed, the City will abate it and assess the costs against the property owner.

The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.

4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action which may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsection 1 and 2, and the hearing as provided in subsection 3.

(Code of Iowa, Sec. 364.12[3h])

(Code of Iowa, Sec. 364.12[3h])

(Code of Iowa, Sec. 364.12[3h])

7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds five hundred dollars (\$500.00), the City may permit the assessment to be paid in up to ten (10) annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.

A. A violation of this chapter may be punished as a simple misdemeanor in accordance with the penalties set forth in the Iowa Code.

B. A violation of this chapter may be punished as a municipal infraction with a scheduled fine of two hundred fifty dollars for the first offense, five hundred dollars for a second offense, and seven hundred fifty dollars for a third or subsequent offense.

2. Any wild, exotic or dangerous animal within the City in violation of this section is deemed a public nuisance per se. If a wild, exotic or dangerous animal is found to be roaming at large within the City, it may, at the discretion of the Police Chief or animal control officer, be destroyed immediately without prior notice to the owner thereof. The City and its agents shall be under no duty of obligation to capture or otherwise confine the animal.
3. Any person found to be keeping, sheltering, harboring or maintaining a wild, exotic or dangerous animal in violation of this section is subject to the animal's immediate seizure as contraband. If necessary, the animal control officer or deputy may impound a wild, exotic or dangerous animal at another facility. The animal's owner shall be responsible for all costs and expenses incurred by the animal shelter or the City which arise as a result of the seizure and impoundment of a wild, exotic or dangerous animal. Under no circumstances shall a wild, exotic or dangerous animal be returned to or placed with a non-exempt entity within the City limits. If a wild, exotic or dangerous animal is ever again found to be within the City in violation of this section, it shall be immediately confiscated and disposed of as the humane society deems appropriate.

[†] **EDITOR'S NOTE:** Certain other dangerous animals, listed in Chapter 717F.1, Paragraph 5a, of the *Code of Iowa*, are specifically prohibited and regulated by the Iowa Department of Agriculture and Land Stewardship.

55.10 DAMAGE TO PROPERTY OR INTERFERENCE. No owner of an animal shall allow such animal to damage, injure, or destroy any shrubbery, plants, flowers, grass, fence or anything whatsoever upon public or private property thereby causing damage to or interference with the premises.

55.11 BARKING DOGS. It is unlawful to keep or harbor any dog that, by frequent, regular, habitual, or continued barking, yelping, or howling, causes serious annoyance or disturbance to the surrounding neighborhood.

55.12 REMOVAL OF EXCREMENT.

1. An owner shall keep all structures, pens or yards wherein dogs or cats are confined, clean, devoid of vermin and free of odors arising from excrement. This shall be done on a routine and/or daily basis.
2. It is unlawful for an owner to permit an animal to discharge excrement upon any public property, common area, common thoroughfare, street, alley, play area, park or private property unless the excrement is immediately picked up and disposed of in an appropriate refuse container.

55.13 NUMBER OF ANIMALS REGULATED.

1. It is unlawful for any person to keep or maintain at any one location within the City more than four (4) of the following types of animals, those being dogs, cats, ferrets, and pot belly pigs; and of those four, no more than three shall be of the same species. This limitation applies to animals that are more than six months old or animals that are from more than one litter that are more than three months old. This limitation shall not apply to any person provided that person has applied and been approved for the proper kennel license through the State of Iowa and has complied with the State requirements.
2. Indoor pets such as gerbils, hamsters, guinea pigs, mice, birds, snakes and reptiles, and similar animals normally maintained as pets in an enclosure inside of a dwelling are not prescribed by this section unless specifically regulated by other sections.
3. If a person is found to be keeping more than four animals without the permit required by this section, the excessive number of animals may be immediately removed from the property and impounded. Any such impounded animals shall be held for seven days and if the owner has not either complied with the court for the return of the animals by the end of the seventh day, the animal shelter shall seek to permanently place the animals or euthanize such animals.

55.14 IMPOUNDMENT.

1. The City may establish and maintain a municipal animal shelter or the City may contract with any nonprofit incorporated society or association which shall provide and maintain an animal shelter for the enforcement of this chapter. It shall be the duty of the persons authorized by the City to operate such animal shelter to supervise and control such facility, to cause the shelter to be kept in a sanitary

condition and free from offensive odors, to provide for adequate food, water, and shelter, to provide for the collection of animals not redeemed, and to assist in the enforcement and operation of this chapter. The provisions of this chapter shall be enforced by any animal control officer and by members of the Clarence Police Department.

2. Impoundment Procedure. Unrestrained animals found running at large, nuisance animals, neglected animals, abandoned animals, and dogs or cats running at large without rabies vaccination tags shall be taken and impounded in the animal shelter and there confined in a humane manner.

3. Notice. Upon impounding an animal the owner or custodian of the animal shall be given a written notice of the impoundment authority within two days and the owner shall then have five days to redeem the animal not counting the day of impoundment. If an impounded animal is not displaying a vaccination tag pursuant to Section 55.02 the impoundment authority shall have no obligation to search for or provide notice to the owner or custodian.

4. Claim Fees. A person claiming an impounded dog or cat shall pay an impoundment fee of sixty dollars (\$60.00) on the first impoundment, eighty dollars (\$80.00) for the second impoundment, one hundred dollars (\$100.00) for the third and/or subsequent impoundments and a boarding fee of six dollars and fifty cents (\$6.50) per day. In addition, a rabies vaccination tag must be obtained for any dog or cat. If there are any veterinary charges and such other costs actually incurred by the animal shelter in the care of the claimed animal the owner is also required to pay upon release from the shelter. Impound and boarding fees for other animals shall be as follows:

A. For each swine, sheep, goat, domestic fowl, or chickens, geese, duck or water fowl impounded, an impoundment fee of seventy dollars (\$70.00), and a boarding fee of ten dollars (\$10.00) per day.

B. For each horse, mule, jack, cow, bull, steer, ox or similar cattle impounded an impoundment fee of forty dollars (\$40.00) and a boarding fee of fifteen dollars (\$15.00) per day.

C. For any animal not specifically mentioned herein, the impoundment fee shall be eighty dollars (\$80.00) per day.

5. Diseased or Injured Animals. No animal need be kept for the period of notification or impoundment if a licensed veterinarian and/or animal control officer supervisor certifies that the animal is so diseased or injured that it is unduly suffering or cannot survive. In such cases the animal may be subjected to humane euthanasia.

6. Unclaimed Animals. Animals not reclaimed or redeemed within the time limitations provided by this chapter shall become the property of the City or animal shelter and shall be placed for adoption in a suitable home or subject to humane euthanasia.

7. Duty to Pay Fees. The refusal to redeem or reclaim any impounded animal shall not relieve the owner of the duty to pay the impoundment fees, boarding fees, veterinarian expenses or any other costs incurred in the care of the animal. An owner or custodian who refuses to pay such expenses shall be in violation of this chapter and subject to citation for the same.

8. Non-Liability. Neither the City nor the animal shelter, nor the agents and officers enforcing the provisions of this chapter shall be liable for any accident or subsequent disease that may occur in connection with the impoundment of any animal pursuant to this chapter.

55.15 INSPECTIONS.

1. Inspection Procedures. Whenever, it becomes necessary to make an inspection to enforce any of the provisions of or to perform any duty imposed by this chapter or other applicable law, or whenever the animal control officer or other authorized person has reasonable cause to believe that there exists in any building or upon any premises any violation of the provisions of this chapter or other applicable law, the officer is authorized to enter such property at any reasonable time and to inspect the same and perform any duty imposed upon the officer by this chapter or other applicable law. If property is occupied, the officer shall first present proper credentials to the occupant and requesting entry, explaining the reasons entry is sought. If the property is unoccupied, the officer shall first make a reasonable effort to locate the owner or other person in control of the property and request entry explaining the reason thereof. If entry is refused, or the owner or person in control of the property cannot be located after due diligence, the officer shall have recourse to every remedy provided by law to secure lawful entry and inspect the property.

2. Immediate Inspection. If the animal control officer or police officer has reasonable cause to believe that the keeping or the maintenance of any animal is so hazardous, unsafe or dangerous as to require immediate inspection to safeguard the animal or the public health or safety, the officer shall have the right to immediately enter and inspect such property, and may use any reasonable means required to affect such entry and make such investigation, whether the property is occupied or unoccupied. If occupied, the officer shall first present proper identification and demand entry explaining the reasons thereof and the purpose of the inspection.

55.16 UNLAWFUL TO INTERFERE. It is unlawful for any person to interfere with, hinder, willfully prevent or attempt to prevent any deputy, animal control officer, police officer or person authorized to enforce this chapter by the City in the enforcement of this chapter.

55.17 SEIZURE, IMPOUNDMENT, AND DISPOSITION OF VICIOUS ANIMALS.

1. The animal control officer or designee, in his or her discretion or upon receipt of a complaint alleging that a particular animal is a vicious animal, may initiate proceedings to declare such animal a vicious animal. A hearing on the matter shall be conducted by the Council. The person owning, keeping, sheltering, or harboring the animal in question shall be given not less than seventy-two (72) hours' written notice of the time and place of said hearing. Said notice shall set forth the description of the animal in question and the basis for the allegation of viciousness. The notice shall state that if the animal is determined to be vicious, the owner will be required to remove it from the City or allow it to be destroyed. The notice shall be served upon any adult residing at the premises where the animal is located, or may be posted on those premises if no adult is present to accept service.

2. If after a hearing, the Council determines that an animal is vicious, the Council shall order the person owning, sheltering, harboring, or keeping the animal to remove it from the City, or to cause it to be destroyed in a humane manner. The order

shall immediately be served upon the person against whom issued in the same manner as the notice of hearing. If the order is not complied with within three (3) days of its issuance, the animal control officer is authorized to seize and impound the animal. An animal so seized shall be impounded for a period of seven (7) days. If at the end of the impoundment period, the person against whom the order of the Council was issued has not petitioned the District Court for a review of said order, the animal control officer shall cause the animal to be destroyed.

3. Failure to comply with an order of the Council issued pursuant hereto shall constitute a misdemeanor offense.

4. Any animal found at large which displays vicious tendencies may be processed as a vicious animal pursuant to the foregoing, unless the animal is so vicious that it cannot safely be apprehended; in which case, the animal control officer may immediately destroy it or unless its ownership is not ascertainable, in which case, the animal control officer may destroy it after three (3) days of impoundment.

5. Any animal which is alleged to be vicious and which is under impoundment or quarantine at the animal shelter shall not be released to the owner, but shall continue to be held at the expense of the owner pending the outcome of the hearing. All costs of such impoundment or quarantine shall be paid by the owner if the animal is determined to be vicious. If the animal is not determined to be vicious, all costs of such impoundment or quarantine shall be paid by the City.

CHAPTER 56

URBAN CHICKENS

56.01 Purpose
56.02 Definitions
56.03 Where Permitted
56.04 Enclosure Requirements

56.05 Number of Chickens Permitted
56.06 Compliance Committee
56.07 Permit Requirements
56.08 Investigation of Complaints

56.01 PURPOSE. The purpose of this chapter is to protect the health, safety and welfare of the citizens within the City by allowing a process by which a property owner may keep a limited number of domesticated chickens on their property while observing minimum property standards.

56.02 DEFINITIONS. Definitions used in this chapter.

1. “Chicken” shall mean a member of the subspecies *Gallus gallus domesticus*, a domesticated fowl.
2. “Urban Chicken” shall mean a chicken kept on a permitted tract of land pursuant to a permit issued under this chapter.
3. “Coop” shall mean a cage, enclosure or building, either stationary or movable, used for housing and protecting chickens from weather and predators.
4. “Pen” shall mean an enclosure for chickens which allows freedom of movement but also prevents escape.
5. “Permittee” shall mean an applicant who has been granted a permit to raise, harbor or keep chickens pursuant to this chapter.

56.03 WHERE PERMITTED. Notwithstanding the provision of this section, the keeping of domestic chickens (subspecies *Gallus gallus domesticus*), except roosters, shall be permitted in single family residential properties so long as such keeping is in compliance with this subsection and all other applicable City ordinances.

56.04 ENCLOSURE REQUIREMENTS. The following criteria shall be considered a minimum form of compliance for the City to consider issuing a permit allowing for the presence of any particular chickens unless allowing such chickens would endanger the health, safety, peace, quiet, comfort, enjoyment of, or otherwise become a public nuisance to hereby residents or occupants or places of business:

1. Chickens must be confined in a coop, fowl house, or mobile coop, known as a chicken tractor, not less than 18 inches in height. In addition to being confined within a coop, a fenced pen area at a size outlined below shall be maintained. Chickens must be kept within the coop, the fowl house, or the fenced pen area at all times unless removed for a temporary time for the safety of the chicken.
2. The coop, the fowl house, or the fenced pen area must be of such design as to be reasonably expected to prevent entry by dogs, cats, or other animals and shall be completely enclosed.

3. The coop or fowl house must be used for chickens only and must be well ventilated.
4. The coop, the fowl house, or the fenced pen area shall have a minimum of four (4) square feet of floor area for each chicken but shall not be any larger than twelve (12) square feet of area for each chicken. The coop, fowl house, chicken tractor or fenced pen area shall be a minimum of ten (10) feet from any neighboring property line and a minimum of twenty-five (25) feet from any neighboring dwelling. In the event a zoning or other ordinance requires a greater distance, the more restrictive regulations shall apply.
5. Any coop, fowl house, or fenced pen area must be well drained so there is no accumulation of moisture.
6. Any coop, fowl house, or fenced pen area shall be kept clean, sanitary and free from accumulation of chicken excrement and objectionable odors. All droppings and body excretions shall be placed in fly-proof containers and double-bagged in plastic bags or, in the alternative, used as fertilizer on the same property or, with the owner's permission, on other property within the City, so long as the droppings and body excretions are spread and incorporated into the soil within twenty-four (24) hours.
7. In addition to the coop, fowl house, or fenced pen area, the permittee shall be sufficiently confining chickens to the permitted property and prevent chickens from entering upon any adjacent property.
8. All chicken feed shall be stored in rodent-proof containers.
9. All such chickens must be hens; no roosters are permitted.
10. The City shall not be liable for injury or death of chickens caused by dogs, cats, or other animals, domestic or wild, whether such animals are licensed by the City or not. Further, injury or death of a chicken caused by an animal is not, in and of itself, sufficient grounds for the City to determine that the animal is a vicious animal pursuant to this Code of Ordinances. Any dead chicken shall be disposed of immediately upon discovering said dead chicken in a manner so as not to cause a nuisance pursuant to this Code of Ordinances.
11. Slaughtering of chickens or selling of eggs is forbidden.
12. An owner or possessor of animals on property that is newly annexed or rezoned to a residential classification has ninety (90) days from the date of annexation or rezoning to bring the property into compliance required by this section.
13. A violation of this subsection is a municipal infraction as provided in this Code of Ordinances.

56.05 NUMBER OF CHICKENS PERMITTED. No more than five (5) chickens shall be kept or maintained per property at any time.

56.06 COMPLIANCE COMMITTEE. There shall be established a three-member compliance committee to review applications and investigate complaints. Members shall be appointed by the City Council, and shall serve staggered three-year terms.

56.07 PERMIT REQUIREMENTS. No person shall keep any chickens unless they possess a City of Clarence permit issued by the City Clerk or their designee.

1. Permits will remain valid for so long as the property remains in possession of the person to whom the permit is issued.
2. The applicant must successfully complete an approved class in raising chickens in an urban setting. The Permitting Officer shall maintain a current list of such approved classes.
3. Permits may be granted to:
 - A. Property owner, and
 - B. Tenant, with the written approval of the property owner.
4. The fee for such permit shall be set by resolution of the City Council.
5. Property owners shall notify the City upon discontinuance of housing chickens.
 - A. As part of discontinuing housing of chickens on the property, the pen and coop areas shall be cleaned in a timely manner so as to not provide a nuisance to neighboring property owners.
 - B. Fees shall not be refunded if the property owner removes the chickens from the premises.
6. The permit may be suspended or revoked by the City Council upon hearing and finding evidence that the permittee has violated the conditions of the permit and listed in this section of the Code. All chickens must be removed from the premises and disposed of in accordance with public health practices upon revocation of the permit. There will be no refund of the permit fee. All associated costs of removal of the chickens shall be assessed back to the property owner.
7. By the granting of the permit to raise chickens and the application thereof, the permittee authorizes that the City or its agents have the right to go onto permittee's property any time for the limited purposes of inspection of the premises to ensure that all applicable conditions have been met.

56.08 INVESTIGATION OF COMPLAINTS. In the event of complaints of non-compliance with this ordinance, the Compliance Committee shall investigate said complaint. If the Compliance Committee determines there is a violation of the ordinance, they shall take the following steps:

1. After an initial complaint, where a violation is found, permittee shall receive a written warning. The Committee shall do a follow-up inspection to determine compliance.
2. After a second complaint, where a violation is found, against the same permittee, a written, final warning shall be issued. Committee members may do a follow-up inspection at two weeks, one month, and three months, if required.
3. After a third complaint, where a violation is found, the urban chicken permit shall be revoked.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be

covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

USE OF PUBLIC SEWERS

97.01 Storm Water
97.02 Surface Waters Exception
97.03 Prohibited Discharges
97.04 Restricted Discharges

97.05 Restricted Discharges; Powers
97.06 Special Facilities
97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to be the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five-day biochemical oxygen demand greater than 300 parts per million by weight, or (b) containing more than 350 parts per million by weight of suspended solids, or (c) having an average daily flow greater than two percent of the average sewage flow of

the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to 300 parts per million by weight, or (b) reduce the suspended solids to 350 parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty degrees (150°) F (65° C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between 32° F and 150° F (0° to 65° C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, Federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.

10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES – POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing

facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

CHAPTER 98

98.03 COMPLIANCE WITH REGULATIONS. The type, capacity, location, and layout of a private on-site wastewater treatment and disposal system shall comply with the specifications and requirements set forth by the Iowa Administrative Code 567, Chapter 69, and with such additional requirements as are prescribed by the regulations of the County Board of Health.

(IAC, 567-69.1[3 & 4])

98.04 PERMIT REQUIRED. No person shall install or alter an on-site wastewater treatment and disposal system without first obtaining a permit from the County Board of Health.

98.05 DISCHARGE RESTRICTIONS. It is unlawful to discharge any wastewater from an on-site wastewater treatment and disposal system (except under an NPDES permit) to any ditch, stream, pond, lake, natural or artificial waterway, drain tile or to the surface of the ground.

(IAC, 567-69.1[3])

98.06 MAINTENANCE OF SYSTEM. The owner of an on-site wastewater treatment and disposal system shall operate and maintain the system in a sanitary manner at all times and at no expense to the City.

98.07 SYSTEMS ABANDONED. At such time as a public sewer becomes available to a property served by an on-site wastewater treatment and disposal system, as provided in Section 95.05, a direct connection shall be made to the public sewer in compliance with these Sanitary Sewer chapters and the on-site wastewater treatment and disposal system shall be abandoned and filled with suitable material.

99.11 Notification of Rate Change

99.01 SEWER SERVICE CHARGES REQUIRED. Every customer shall pay to the City sewer service fees as hereinafter provided.

(Code of Iowa, Sec. 384.84)

99.02 RATE. Each customer shall pay sewer service charges in the amount of one hundred percent (100%) of the bill for water and water service attributable to the customer for the property served, but in no event less than a monthly charge of twenty-one dollars, twenty-five cents (\$21.25). In addition, each customer will pay a sewer project fee charge of six dollars, fifty cents (\$6.50) per month.

(Ord. 297 – Aug. 23 Supp.)

99.03 SPECIAL RATES. Where, in the judgment of the Superintendent and the Council, special conditions exist to the extent that the application of the sewer charges provided in Section 99.02 would be inequitable or unfair to either the City or the customer, a special rate shall be proposed by the Superintendent and submitted to the Council for approval by resolution.

(Code of Iowa, Sec. 384.84)

99.04 PRIVATE WATER SYSTEMS. Residential customers whose premises are served by a private water system shall pay sewer charges in the amount reflected as the minimum rates and fees set in 99.02 of this Code of Ordinances per monthly period. Commercial customers whose premises are served by a private water system shall pay sewer charges as negotiated with the Council.

(Ord. 291 – Nov. 22 Supp.)

99.05 PAYMENT OF BILLS. All sewer service charges are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.03 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.04 if the combined service account becomes delinquent, and the provisions contained in Section 92.07 relating to lien notices shall also apply in the event of a delinquent account.

99.06 LIEN FOR NONPAYMENT. Except as provided for in Section 92.06 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Ord. 224 – Feb. 14 Supp.)

(Code of Iowa, Sec. 384.84)

99.07 SPECIAL AGREEMENTS PERMITTED. No statement in these chapters shall be construed as preventing a special agreement, arrangement, or contract between the Council, and any industrial concern whereby an industrial waste of unusual strength or character may be accepted, subject to special conditions, rate, and cost as established by the Council. Provided, however, the user charge system shall take precedence over any terms or conditions of agreements or contracts which are inconsistent with the requirements of Section 204(b)(1)(A) of the Clean Water Act.

99.08 SURCHARGES. For those customers who contribute wastewater the strength of which is greater than normal domestic sewage, a surcharge will be collected in addition to the sewer user charge. The surcharge shall be as determined by the Council.

99.09 RESPONSIBILITY FOR INCREASED COSTS. Any user which discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the wastewater treatment works, or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance or replacement of the wastewater treatment works, shall pay for such increased costs. The charge to each user shall be as determined by the Council.

99.10 REVIEW OF USER CHARGE SYSTEM. The City shall review the user charge system at least every two (2) years and revise user charge rates as necessary to ensure that the system generates adequate revenues to pay the costs of operation and maintenance including replacement and that the system continues to provide for the proportional distribution of operation and maintenance including replacement costs among users.

99.11 NOTIFICATION OF RATE CHANGE. The City will notify each user at least annually, in conjunction with a regular bill, of the rate being charged for operation and maintenance including replacement of the treatment works.

STORM WATER UTILITY

100.01 Purpose

100.02 Definitions

100.03 Storm Water Drainage System District Established

100.04 Rates

100.05 Payment of Bills

100.06 Lien for Nonpayment

100.01 PURPOSE. The purpose of this chapter is to establish a Storm Water Utility and provide a means of funding the construction, operation and maintenance of storm water management facilities including, but not limited to, detention and retention basins, storm water sewers, inlets, ditches and drains, and cleaning of streets. The Council finds that the construction, operation and maintenance of the City's storm and surface water drainage system should be funded through charging users of property which may connect or discharge directly, or indirectly, into the storm and surface water drainage system.

100.02 DEFINITIONS. For use in this chapter, unless the context specifically indicates otherwise, the following terms are defined:

1. "Connection" means the physical act or process of tapping a public storm water sewer or drainage line, or joining onto an existing side sewer, for the purpose of connecting private impervious surface or other storm and surface water sources or systems to the public storm and surface water system. It also includes creation or maintenance of impervious surface that causes or is likely to cause an increase in the quantity or decrease in quality or both from the natural state of storm water runoff, and which drains, directly or indirectly, to the storm and surface water system.
2. "Customer" means, in addition to any person receiving storm water service from the City, the owner of the property served, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
3. "Storm and surface water drainage system" means any combination of publicly owned storm and surface water quantity and quality facilities, pumping, or lift facilities, storm and secondary drain pipes and culverts, open channels, creeks and ditches, force mains, laterals, manholes, catch basins and inlets, including the grates and covers thereof, detention and retention facilities, laboratory facilities and equipment, and any other publicly owned facilities for the collection, conveyance, treatment and disposal of storm and surface water system within the City, to which sanitary sewage flows are not intentionally admitted.
4. "User" means any person who uses property that maintains connection to, discharges to, or otherwise receives services from the City for storm water management. The occupant of occupied property is deemed the user. If the property is not occupied, the person who has the right to occupy it shall be deemed the user.

100.03 STORM WATER DRAINAGE SYSTEM DISTRICT ESTABLISHED. Pursuant to the authority of Section 384.84[5] of the *Code of Iowa*, the entire City is hereby declared a Storm Water Drainage System District for the purpose of establishing, imposing, adjusting and providing for the collection of rates for the operation and maintenance of storm

water management facilities. The entire City, as increased from time to time by annexation, shall constitute a single Storm Water Drainage System District.

(Code of Iowa, Sec. 384.84)

100.04 RATES. Each customer shall pay for storm and surface water drainage system service provided by the City. The rates for the operation and maintenance of the storm water management facilities shall be collected by imposing a monthly rate on each residential, commercial and industrial user within the City. The Council may adopt rules, charges, rates, and fees for the use of the City's storm and surface water system, and for services provided by the City relating to that system. Such rules may include delinquency and interest charges and penalties. Such charges and fees shall be just and equitable based upon the actual costs of operation, maintenance, acquisition, extension and replacement of the City's system, the costs of bond repayment, regulation, administration, and services of the City. A fee of two dollars (\$2.00) shall be charged to each residential utility customer each billing cycle and a fee of two dollars (\$2.00) shall be charged to each commercial utility customer each billing cycle.

100.05 PAYMENT OF BILLS. All Storm Water Drainage System District charges shall be due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.03 of this Code of Ordinances. All City services may be discontinued in accordance with the provisions contained in Section 92.04 if the combined service account becomes delinquent, and the provisions contained in Section 92.07 relating to lien notices shall also apply in the event of a delinquent account.

(Code of Iowa, Sec. 384.84)

100.06 LIEN FOR NONPAYMENT. Except as provided for in Section 92.06 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for charges for the operation and maintenance of the storm water management facilities. Any such charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

110.01 FRANCHISE GRANTED. There is hereby granted to INTERSTATE POWER & LIGHT COMPANY, hereinafter referred to as the “Company,” its successors and assigns, the right, franchise and privilege for the term of twenty-five (25) years from and after the passage, adoption, approval and acceptance of the ordinance codified by this chapter,[†] to lay down, maintain and operate the necessary pipes, mains and other conductors and appliances in, along and under the streets, avenues, alleys and public places in the City as now or hereafter constituted, for the purpose of distributing, supplying and selling gas to said City and the residents thereof and to persons and corporations beyond the limits thereof; also the right of eminent domain as provided in Section 364.2 of the *Code of Iowa*. The term “gas” as used in this franchise shall be construed to mean natural gas only.

110.02 MAINS AND PIPES; INDEMNIFICATION. The mains and pipes of the Company must be so placed as not to interfere unnecessarily with water pipes, drains, sewers and fire plugs which have been or may hereafter be placed in any street, alley and public places in said City nor unnecessarily interfere with the proper use of the same, including ordinary drainage, or with the sewers, underground pipe and other property of the City, and the Company, its successors and assigns shall hold the City free and harmless from all damages arising from the negligent acts or omissions of the Company in the laying down, operation and maintenance distribution system.

The City shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause the Company unreasonable additional expense in exercising its authority under this section. The City shall also provide a reasonable alternative location for the Company's facilities as part of its relocation request. The City shall give the Company reasonable advance written notice to vacate a public right-of-way. Prior to vacating a public right-of-way, the Company shall be provided an opportunity to secure an easement to allow it to operate and maintain its existing facilities.

110.05 SERVICE REQUIREMENTS. Said Company, its successors and assigns, shall throughout the term of franchise distribute to all consumers gas of good quality and shall furnish uninterrupted service, except as interruptible service may be specifically contracted for with consumers; provided, however, that any prevention of service caused by fire, act of God or unavoidable event or accident shall not be a breach of this condition if the Company resumes service as quickly as is reasonably practical after the happening of the act causing the interruption.

110.06 FRANCHISE FEES.

1. In its monthly billing the Company shall include a franchise fee of zero percent (0%) on the gross receipts from the sale of natural gas to the Company's natural gas customers located within the corporate limits of the City.
2. The franchise fee shall be applied to all customers' bills in accordance with Iowa Code Chapter 364.2 and 423B.5. The amount of the franchise fee shall be shown separately on the utility bill to each customer.
3. The Company will commence collecting franchise fees on or before the first Company billing cycle of the first calendar month following ninety (90) days of receipt of information required of the City to implement the franchise fee. This information shall include but not be limited to a copy of the City's Revenue Purpose Statement and written proof of legal adoption and publication of the Revenue Purpose Statement, City's list of City utility accounts exempt per Iowa law from the franchise fee, signed Nondisclosure Agreement pertaining to the protection of the confidentiality of utility service address information provided by the Company to the City, and the City's verified utility customer service address list. The Company shall not commence assessing the franchise fee until it has received written approval of its amended tax rider tariff from the Iowa Utilities Board.
4. The City recognizes that the costs of franchise fee administration are not charged directly to the City and agrees it shall reimburse the Company for any initial or ongoing costs incurred by the Company in collecting franchise fees that the Company in its sole opinion deems to be in excess of typical costs of franchise fee administration.
5. Upon receipt of a final and unappealable order or approval authorizing annexation, or changes in the corporate limits of said City, the City Clerk shall provide written notification by certified mail to an officer of Company of such annexation or change in the limits of said City, and the Company shall apply the franchise fee to its customers who are affected by the annexation or change in the corporate limits of the City, commencing on an agreed upon date which is not less than ninety (90) days from receipt of the information required of the City to implement the franchise fee.

6. The Company shall have no obligation to collect franchise fees from customers in any annexed area until and unless the following have all been provided to the Company by certified mail: such final and unappealable orders or approvals, the City's list of City utility accounts exempt from the franchise fee in the annexed area, and the City's verified utility customer service address list for the annexed area.

7. The City shall indemnify the Company from claims of any nature arising out of or related to the imposition and collection of the franchise fee. 8. The Company shall remit franchise fee revenues, minus uncollectible amounts, to the City no more frequently than on or before the last business day of the month following each calendar year quarter. Company shall notify City at least thirty (30) days in advance of any changes made in this collection schedule, including any alterations in the calendar quarters or any other changes in the remittance periods.

9. The City shall give the Company a minimum six-month notice prior to the request to implement any adjustment in the percentage of franchise fee to be collected pursuant to this section. The City agrees to modify the level of franchise fees imposed only once in any 24-month period. When any such Ordinance increasing, decreasing, modifying or eliminating the franchise fee shall become effective, billings reflecting the change shall commence on an agreed upon date which is not less than ninety (90) days following written notice to the Company by certified mail. The Company shall not be required to implement such new percentage unless and until it determines that it has received appropriate official documentation of final action by the City Council. In no event may the percentage of franchise fee exceed the statutory amount authorized by Iowa law.

10. The City shall be solely responsible for the proper use of any amounts collected as franchise fees, and shall only use such fees as collected for a purpose as allowed by applicable law.

11. The Company shall not, under any circumstances be required to return or refund any franchise fees that have been collected from City customers and remitted to the City. In the event the Company is required to provide data or information in defense of the City's imposition of franchise fees or the Company is required to assist the City in identifying customers or calculating any franchise fee refunds for groups of customers or individual customers, the City shall reimburse the Company for the expenses incurred by the Company to provide such data or information.

12. Collection of the franchise fee shall cease at the earlier of the modification or repeal of the franchise fee or the end of the franchise term.

A. The obligation to collect and remit the fee imposed by this chapter is modified if:

(1) Any other person is authorized to sell natural gas to customers within the corporate limits of the City and the City imposes a franchise fee or its lawful equivalent at zero or a lesser rate than provided in this chapter, in which case the obligation of Company to collect and remit franchise fee shall be modified to zero or the lesser rate; or

(2) The City adds additional territory by annexation or consolidation and is unable or unwilling to impose the franchise fee upon all persons selling natural gas to consumers within the additional territory, in which case the franchise fee imposed on the revenue from sales by Company in the additional territory shall be zero or equal to that of the lowest fee being paid by any other retail seller of natural gas within the City; or

(3) The Iowa General Assembly enacts legislation, or any Iowa court issues a final judicial decision regarding franchise fees, or the Iowa Utilities Board issues a final nonappealable order (collectively, "Final Franchise Fee Action") that modifies, but does not repeal, the ability of the City to impose a franchise fee or the ability of Company to collect from City customers and remit franchise fees to City. Within sixty (60) days of Final Franchise Fee Action, the City shall notify Company and the parties shall meet to determine whether this chapter can be revised, and, if so, how to revise the franchise fee on a continuing basis to meet revised legal requirements. After Final Franchise Fee Action and until passage by the City of revisions to the franchise fee Ordinance, Company may temporarily discontinue collection and remittance of the franchise fee if in its sole opinion it believes it is required to do so in order to comply with revised legal requirements.

B. The obligation to collect and remit the fee imposed by this chapter is repealed, effective as of the date specified below with no liability therefor, if:

(1) The imposition, collection or remittance of a franchise fee is judicially determined to be unlawful by a court of competent jurisdiction within the State of Iowa. Such determination shall be effective only after all available appeals have either been exhausted or have expired; or

(2) The Iowa General Assembly enacts legislation making imposition, collection or remittance of a franchise fee unlawful, effective as of the date lawfully specified by the General Assembly; or

(3) The Iowa Utilities Board, or any successor agency, denies the Company the right to impose, collect or remit a franchise fee provided such denial is affirmed by the Supreme Court of Iowa, effective as of the date of the final agency order from which the appeal is taken.

13. That said franchise fee shall be in lieu of any other payments to the City for the Company's use of streets, avenues, alleys and public places in the said City and other administrative or regulatory costs with regard to said franchise; and said pipes, mains, and other conductor and appliances in, along and under the streets, avenues, alleys and public places in the said City for the purpose of distributing, supplying and selling gas to said City and the residents thereof and to persons and corporations beyond the limits thereof shall be exempt from any special tax, assessment, license or rental charge during the entire term of this chapter.

110.07 MANAGEMENT FEES. The City shall not, pursuant to Chapter 480A.6 of the *Code of Iowa*, impose or charge right-of-way management fees upon the Company or fees for permits for Company construction, maintenance, repairs, excavation, pavement cutting or inspections of Company work sites and projects or related matters.

110.08 NONEXCLUSIVE. The franchise granted by this chapter shall not be exclusive.

110.09 TERM OF FRANCHISE. The term of the franchise granted by this chapter and the rights granted thereunder shall continue for the period of twenty-five (25) years from and after its acceptance by the said Company, as herein provided.

110.10 ENTIRE AGREEMENT. This chapter sets forth and constitutes the entire agreement between the Company and the City with respect to the rights contained herein, and may not be superseded, modified or otherwise amended without the approval and acceptance of the Company. Upon acceptance by the Company, this chapter shall supersede, abrogate and repeal the prior gas system ordinance between the Company and the City as of the date this chapter is accepted by the Company. Notwithstanding the foregoing, in no event shall the City enact any ordinance or place any limitations, either operationally or through the assessment of fees, that create additional burdens upon the Company, or which delay utility operations.

The Company shall not be required to implement such new percentage unless and until it determines that it has received appropriate official documentation of final action by the City Council. In no event may the percentage of franchise fee exceed the statutory amount authorized by Iowa law.

10. The City shall be solely responsible for the proper use of any amounts collected as franchise fees, and shall only use such fees as collected for a purpose as allowed by applicable law.

11. The Company shall not, under any circumstances be required to return or refund any franchise fees that have been collected from City customers and remitted to the City. In the event the Company is required to provide data or information in defense of the City's imposition of franchise fees or the Company is required to assist the City in identifying customers or calculating any franchise fee refunds for groups of customers or individual customers, the City shall reimburse the Company for the expenses incurred by the Company to provide such data or information.

12. Collection of the franchise fee shall cease at the earlier of the modification or repeal of the franchise fee or the end of the franchise term.

A. The obligation to collect and remit the fee imposed by this chapter is modified if:

(1) Any other person is authorized to sell electricity to customers within the corporate limits of the City and the City imposes a franchise fee or its lawful equivalent at zero or a lesser rate than provided in this chapter, in which case the obligation of Company to collect and remit franchise fee shall be modified to zero or the lesser rate; or

(2) The City adds additional territory by annexation or consolidation and is unable or unwilling to impose the franchise fee upon all persons selling electricity to consumers within the additional territory, in which case the franchise fee imposed on the revenue from sales by Company in the additional territory shall be zero or equal to that of the lowest fee being paid by any other retail seller of electricity within the City; or

(3) The Iowa General Assembly enacts legislation, or any Iowa court issues a final judicial decision regarding franchise fees, or the Iowa Utilities Board issues a final nonappealable order (collectively, "Final Franchise Fee Action") that modifies, but does not repeal, the ability of the City to impose a franchise fee or the ability of Company to collect from City customers and remit franchise fees to City. Within sixty (60) days of Final Franchise Fee Action, the City shall notify Company and the parties shall meet to determine whether this chapter can be revised, and, if so, how to revise the franchise fee on a continuing basis to meet revised legal requirements. After Final Franchise Fee Action and until passage by the City of revisions to the franchise fee chapter, Company may temporarily discontinue collection and remittance of the franchise fee if in its sole opinion it believes it is required to do so in order to comply with revised legal requirements.

B. The obligation to collect and remit the fee imposed by this chapter is repealed, effective as of the date specified below with no liability therefor, if:

(1) Any of the imposition, collection or remittance of a franchise fee is ruled to be unlawful by the Supreme Court of Iowa, effective as of the date of such ruling or as may be specified by that Court; or

(2) The Iowa General Assembly enacts legislation making imposition, collection or remittance of a franchise fee unlawful, effective as of the date lawfully specified by the General Assembly; or

(3) The Iowa Utilities Board, or any successor agency, denies the Company the right to impose, collect or remit a franchise fee provided such denial is affirmed by the Supreme Court of Iowa, effective as of the date of the final agency order from which the appeal is taken.

13. The franchise fee shall be in lieu of any other payments to the City for the Company's use of streets, alleys and public places in the said City and other administrative or regulatory costs with regard to said franchise; and said poles, lines, wires, conduits and other appliances for the distribution of electric current along, under and upon the streets, alleys and public places in the said City to supply individuals, corporations, communities, and municipalities both inside and outside of

said City with electric light, heat and power shall be exempt from any special tax, assessment, license or rental charge during the entire term of this chapter.

111.10 MANAGEMENT FEES. The City shall not, pursuant to Chapter 480A.6 of the *Code of Iowa*, impose or charge right-of-way management fees upon the Company or fees for permits for Company construction, maintenance, repairs, excavation, pavement cutting or inspections of Company work sites and projects or related matters.

111.11 TERM OF FRANCHISE. The term of the franchise granted by this chapter and the rights granted thereunder shall continue for the period of twenty-five (25) years from and after its acceptance by the said Company, as herein provided.

111.12 ENTIRE AGREEMENT. This chapter sets forth and constitutes the entire agreement between the Company and the City with respect to the rights contained herein, and may not be superseded, modified or otherwise amended without the written approval and acceptance of the Company. Upon written acceptance by the Company, this chapter shall supersede, abrogate and repeal the prior electric system franchise ordinance between the Company and the City as of the date this franchise ordinance is accepted by the Company. Notwithstanding the foregoing, in no event shall the City enact any Ordinance or place any limitations, either operationally or through the assessment of fees other than those approved and accepted by the Company within this chapter, that create additional burdens upon the Company, or which delay utility operations.

2. The use of structures or facilities existing at the time of the adoption of the ordinance codified by this chapter may be continued even though such use may not conform with the regulations of the chapter. However, the storage and use of hazardous substances within the primary protection zone, must provide an enclosed secondary containment system. Such structure or facility may not be enlarged, extended, reconstructed or substituted subsequent to adoption of said ordinance unless exemption is granted by the City Council.

3. Any person who engages in nonresidential activities relating to the storage, handling, use and/or production of any toxic or hazardous substances who is exempt from this chapter by law shall not be subject to the restrictions contained herein.

4. All requests for permits or special exceptions in the Wesley Wellhead Protection Zones must be made in writing to the City Council. All requests must include a list of all hazardous chemicals (MSDS sheets will be made available upon request) to be stored, handled, used, or produced under the permit or special exception. All requests may be required to include an environmental assessment report at the discretion of the City Council. Any exemptions or permits granted will be made conditional and may include environmental monitoring and cleanup costs. The exemption or permit will be made void if environmental and/or safety monitoring indicate that the facility or activity is emitting any releases of harmful contaminants to the surrounding environment. The facility will be held financially responsible for all environmental cleanup costs.

147.09 DETERMINATION OF LOCATIONS WITHIN ZONES. In determining the location of properties within the zones depicted on the Zone of Protection Maps, the following rules shall apply:

1. Properties located wholly within one (1) zone reflected on the applicable Zone of Protection Map shall be governed by the restrictions applicable to that zone.
2. For properties having parts lying within more than (1) zone as reflected on the applicable Zone of Protection Map, each part shall be governed by the restrictions applicable to the zone in which it is located.

147.10 ENFORCEMENT AND PENALTIES.

1. The Water Superintendent is designated as the Wellhead Protection Officer unless another person is specifically designated by the City Council to supervise the implementation and enforcement of this chapter.
2. The Wellhead Protection Inspector(s) shall be the Water Superintendent.
3. No building permit shall be issued which is a violation of the Iowa DNR *Separation Distances From Wells*, a violation of this chapter or a source of contamination for a City well.
4. No new underground tank(s) will be allowed for auxiliary fuel storage in the Primary or Secondary zones.
5. Any person, firm or corporation who fails to comply with the provisions of this chapter shall be subject to the provisions and penalties provided therein.

147.11 INSPECTIONS.

1. The Wellhead Protection Inspector(s) shall have the power and authority to enter and inspect all buildings, structures and land within all wellhead protection zones for the purpose of making an inspection. Failure of a person having authority over a property to permit an inspection shall be sufficient grounds and probable cause for a court of competent jurisdiction to issue a search warrant to the Protection Officer or Inspector to inspect such premises.
2. In the event a building or structure appears to be vacant or abandoned, and the owner cannot be readily contacted in order to obtain consent for an inspection, the

officer or inspector may enter into or upon any open or unsecured portion of the premises in order to conduct an inspection thereof.

3. The Wellhead Protection Officer or Inspector shall inspect each City well annually and shall maintain an inventory, if applicable, of all hazardous substances which exist within the Primary and Secondary Protection Zones. One format that may be used is Iowa DNR Form, OMB No. 2050-0072. MSDS sheets on these chemicals will be made available to the Inspector as under 147.08(4).

147.12 NOTICE OF VIOLATION AND HEARING. Whenever an officer or an inspector determines that there is a violation of this chapter, said officer shall give notice thereof, and such notice of violation shall:

1. Be in writing;
2. Be dated and signed by the officer or inspector;
3. Specify the violation or violations; and
4. State that said violation(s) shall be corrected within ten (10) days of the date on which the inspector issued the notice of violation.

147.13 INJUNCTIVE RELIEF. If any person who engages in nonresidential activities stores, handles, uses, and/or produces toxic substances within the wellhead protection zones, as indicated on the Zone of Protection Maps, continues to operate in violation of the provisions of this chapter, then, the City may file an action for injunctive relief in the court of jurisdiction.

150.01 Definitions

150.02 Owner Requirements

150.03 Building Numbering Plan

150.01 DEFINITIONS. For use in this chapter, the following terms are defined:

1. “Owner” means the owner of the principal building.
2. “Principal building” means the main building on any lot or subdivision thereof.

150.02 OWNER REQUIREMENTS. Every owner shall comply with the following numbering requirements:

1. Obtain Building Number. The owner shall obtain the assigned number to the principal building from the Clerk.

(Code of Iowa, Sec. 364.12[3d])

2. Display Building Number. The owner shall place or cause to be installed and maintained on the principal building the assigned number in a conspicuous place to the street in figures not less than two and one-half (2½) inches in height and of a contrasting color with their background.

(Code of Iowa, Sec. 364.12[3d])

3. Failure to Comply. If an owner refuses to number a building as herein provided, or fails to do so for a period of thirty (30) days after being notified in writing by the City to do so, the City may proceed to place the assigned number on the principal building and assess the costs against the property for collection in the same manner as a property tax.

(Code of Iowa, Sec. 364.12[3h])

150.03 BUILDING NUMBERING PLAN. Building numbers shall be assigned in accordance with the building numbering plan on file in the office of the Clerk.

151.02 Planting Restrictions

151.03 Duty to Trim Trees

151.04 Trimming Trees to be Supervised

151.05 Disease Control

151.06 Inspection and Removal

151.01 DEFINITION. For use in this chapter, “parking” means that part of the street, avenue, or highway in the City not covered by sidewalk and lying between the lot line and the curb line or, on unpaved streets, that part of the street, avenue, or highway lying between the lot line and that portion of the street usually traveled by vehicular traffic.

151.02 PLANTING RESTRICTIONS. No tree shall be planted in any parking or street except in accordance with the following:

1. Alignment. All trees planted in any street shall be planted in the parking midway between the outer line of the sidewalk and the curb. In the event a curb line is not established, trees shall be planted on a line ten (10) feet from the property line.
2. Spacing. Trees shall not be planted on any parking which is less than nine (9) feet in width, or contains less than eighty-one (81) square feet of exposed soil surface per tree. Trees shall not be planted closer than twenty (20) feet from street intersections (property lines extended) and ten (10) feet from driveways. If it is at all possible trees should be planted inside the property lines and not between the sidewalk and the curb.
3. Prohibited Trees. No person shall plant in any street any fruit-bearing tree or any tree of the kinds commonly known as cottonwood, poplar, box elder, Chinese elm, evergreen, willow, or black walnut.

151.03 DUTY TO TRIM TREES. The owner or agent of the abutting property shall keep the trees on, or overhanging the street, trimmed so that all branches will be at least fifteen (15) feet above the surface of the street and eight (8) feet above the sidewalks. If the abutting property owner fails to trim the trees, the City may serve notice on the abutting property owner requiring that such action be taken within five (5) days. If such action is not taken within that time, the City may perform the required action and assess the costs against the abutting property for collection in the same manner as a property tax.

(Code of Iowa, Sec. 364.12[2c, d, and e])

151.04 TRIMMING TREES TO BE SUPERVISED. Except as allowed in Section 151.03, it is unlawful for any person to trim or cut any tree in a street or public place unless the work is done under the supervision of the City.

151.05 DISEASE CONTROL. Any dead, diseased, or damaged tree or shrub which may harbor serious insect or disease pests or disease injurious to other trees is hereby declared to be a nuisance.

151.06 INSPECTION AND REMOVAL. The Council shall inspect or cause to be inspected any trees or shrubs in the City reported or suspected to be dead, diseased or damaged, and such trees and shrubs shall be subject to the following:

1. City Property. If it is determined that any such condition exists on any public property, including the strip between the curb and the lot line of private property, the Council may cause such condition to be corrected by treatment or removal. The Council may also order the removal of any trees on the streets of the City which interfere with the making of improvements or with travel thereon.
2. Private Property. If it is determined with reasonable certainty that any such condition exists on private property and that danger to other trees or to adjoining property or passing motorists or pedestrians is imminent, the Council shall notify by certified mail the owner, occupant or person in charge of such property to correct such condition by treatment or removal within fourteen (14) days of said notification. If such owner, occupant, or person in charge of said property fails to comply within 14 days of receipt of notice, the Council may cause the condition to be corrected and the cost assessed against the property.

160.01 STATUTORY AUTHORITY; FINDINGS OF FACT; STATEMENT OF PURPOSE.

1. The Legislature of the State of Iowa has, in Chapter 414, *Code of Iowa*, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents. Therefore, the Council ordains as follows:

2. Findings of Fact.

A. Flood Losses Resulting from Periodic Inundation. The flood hazard areas of the City are subject to inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

B. General Causes of the Flood Losses. These flood losses are caused by: (i) the cumulative effect of development in any flood-prone area causing increases in flood heights and velocities; and (ii) the occupancy of flood-prone areas by uses vulnerable to floods, hazardous to others, inadequately elevated, or otherwise unprotected from flood damages.

3. Statement of Purpose. It is the purpose of this chapter to promote the public health, safety, and general welfare; to minimize flood losses resulting from periodic inundation; to establish or maintain the City's eligibility for participation in the National Flood Insurance Program (NFIP) as defined in 44 *Code of Federal Regulations* (CFR) 59.22(a)(3); and to meet the requirements of 44 CFR 60.3(a) by applying the provisions of this chapter to:

A. Restrict or prohibit uses that are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities;

B. Require uses vulnerable to floods, including public facilities that serve such uses, be provided with flood protection at the time of initial construction;

- C. Protect individuals from buying lands that are unsuited for the intended development purposes due to the flood hazard; and
- D. Assure the eligibility is maintained for property owners in the City to purchase flood insurance through the National Flood Insurance Program.

160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the meaning they have in common usage and to give this chapter its most reasonable application.

1. “Base flood” means the flood having one percent chance of being equaled or exceeded in any given year. (See 100-year flood).
2. “Basement” means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. Also see “lowest floor.”
3. “Development” means any manmade change to improved or unimproved real estate, including (but not limited to) buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations, or storage of equipment or materials. Development does not include “minor projects” or “routine maintenance of existing buildings and facilities,” as defined in this section. It also does not include gardening, plowing, and similar practices that do not involve filling or grading.
4. “Existing construction” means any structure for which the “start of construction” commenced before the effective date of the first floodplain management regulations adopted by the City, and may also be referred to as “existing structure.”
5. “Existing factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the first floodplain management regulations adopted by the City.
6. “Expansion of existing factory-built home park or subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
7. “Factory-built home” means any structure designed for residential use that is wholly or in substantial part made, fabricated, formed, or assembled in manufacturing facilities for installation or assembly and installation on a building site. For the purpose of this chapter, factory-built homes include mobile homes, manufactured homes, and modular homes, and also includes “recreational vehicles” which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
8. “Factory-built home park” means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
9. “Flood” means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
10. “Flood elevation” means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood

elevation is the elevation of flood waters related to the occurrence of the 100-year flood.

11. “Flood Insurance Rate Map” (FIRM) means the official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the City.

12. “Flood plain” means any land area susceptible to being inundated by water as a result of a flood.

13. “Flood plain management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including (but not limited to) emergency preparedness plans, flood control works, flood proofing and flood plain management regulations.

14. “Flood proofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities, which will reduce or eliminate flood damage to such structures.

15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one foot.

16. “Floodway fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.

17. “Historic structure” means any structure that is:

A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing of the National Register;

B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either (i) an approved State program, as determined by the Secretary of the Interior, or (ii) directly by the Secretary of the Interior in states without approved programs.

18. “Lowest floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:

A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the following provisions:

- (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - (2) The bottom of all openings shall be no higher than one foot above grade.
 - (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.
- B. The enclosed area is unfinished (not carpeted, drywalled, etc.) and used solely for low damage potential uses such as building access, parking or storage, and
- C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one foot above the 100-year flood level, and
- D. The enclosed area is not a “basement” as defined in this section.

In cases where the lowest enclosed area satisfies criteria listed in paragraphs A through D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

19. “Minor projects” means small development activities (except for filling, grading, and excavating) valued at less than \$500.00.
20. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the first flood plain management regulations adopted by the City.
21. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the first flood plain management regulations adopted by the City.
22. “100-year flood” means a flood, the magnitude of which has a one percent chance of being equaled or exceeded in any given year, or which, on the average, will be equaled or exceeded at least once every 100 years.
23. “Recreational vehicle” means a vehicle which is:
- A. Built on a single chassis;
 - B. Four hundred (400) square feet or less when measured at the largest horizontal projection;
 - C. Designed to be self-propelled or permanently towable by a light duty truck; and
 - D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.
24. “Routine maintenance of existing buildings and facilities” means repairs necessary to keep a structure in a safe and habitable condition and that do not trigger a

building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:

- A. Normal maintenance of structures such as re-roofing, replacing roofing tiles, and replacing siding;
- B. Exterior and interior painting, papering, tiling, carpeting, cabinets, countertops, and similar finish work;
- C. Basement sealing;
- D. Repairing or replacing damaged or broken window panes;
- E. Repairing plumbing systems, electrical systems, heating or air conditioning systems, and repairing wells or septic systems.

25. "Special flood hazard area" means the land within a community subject to the 100-year flood. This land is identified as Zone A on the community's Flood Insurance Rate Map.

26. "Start of construction" includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.

27. "Structure" means anything constructed or erected on the ground or attached to the ground, including (but not limited to) buildings, factories, sheds, cabins, factory-built homes, storage tanks, and other similar uses.

28. "Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Substantial damage also means flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

29. "Substantial improvement" means any improvement to a structure which satisfies either of the following criteria:

- A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either (i) before the "start of construction" of the improvement, or (ii) if the structure has been "substantially damaged" and is being restored, before the damage occurred. The term does not, however, include any project for improvement of a structure to correct existing violations of State or local health, sanitary, or

safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of an “historic structure,” provided the alteration will not preclude the structure’s designation as an “historic structure.”

B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed on or after the effective date of the first flood plain management regulations adopted by the City shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.

30. “Variance” means a grant of relief by the City from the terms of this chapter.

31. “Violation” means the failure of a structure or other development to be fully compliant with this chapter.

160.03 LANDS TO WHICH CHAPTER APPLIES. This chapter applies to all lands within the jurisdiction of the City that have been identified by the City as having the presence of flood-prone areas. In all areas covered by this chapter, no development shall be permitted except through the issuance of a flood plain development permit, granted by the Council under such safeguards and restrictions as the Council may reasonably impose for the promotion and maintenance of the general welfare, health of the inhabitants of the City, and as specifically noted in Section 160.12.

160.04 COMPLIANCE. No development located within the flood-prone areas of the City shall be located, extended, converted, or structurally altered without full compliance with the terms of this chapter and other applicable regulations.

160.05 ABROGATION AND GREATER RESTRICTIONS. It is not intended by this chapter to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provisions of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

160.06 INTERPRETATION. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements, shall be liberally construed in favor of the Council, and shall not be deemed a limitation or repeal of any other powers granted by the *Code of Iowa*.

160.07 WARNING AND DISCLAIMER OF LIABILITY. The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on the City’s knowledge of past flooding. Larger floods may occur on rare occasions or the flood heights may be increased by manmade or natural causes, such as ice jams and bridge openings restricted by debris. This chapter does not imply that areas outside the flood plain or land uses permitted within such areas will be free from flooding or flood damage. This chapter shall not create a liability on the part of the City or any officer or employee thereof for any flood damages that may result from reliance on this chapter or any administrative decision lawfully made thereunder.

160.08 SEVERABILITY. If any section, clause, provision, or portion of this chapter is adjudged unconstitutional or invalid by a court of appropriate jurisdiction, the remainder of this chapter shall not be affected thereby.

160.09 FLOOD PLAIN DEVELOPMENT PERMIT. A flood plain development permit shall be required for all proposed construction or other development, including the placement of factory-built homes, so that it may be determined whether such construction or other development is proposed within flood-prone areas. No person, firm, corporation, or unit of government shall initiate any development or substantial improvement or cause the same to be done without first obtaining a separate flood plain development permit for each structure or other development.

160.10 ADMINISTRATION. The Zoning Administrator is hereby appointed to administer and implement the provisions of this chapter. Duties of the Flood Plain Administrator include, but are not limited to:

1. Review of all applications for flood plain development permits to assure that sites are reasonably safe from flooding and that the flood plain development permit requirements of this chapter have been satisfied;
2. Review of all applications for flood plain development permits for proposed development to assure that all necessary permits have been obtained from Federal, State, or local governmental agencies from which prior approval is required by Federal, State, or local law;
3. Review all subdivision proposals and other proposed new development, including factory-built home parks or subdivisions, to determine whether such proposals will be reasonably safe from flooding;
4. Issue flood plain development permits for all approved applications;
5. Notify adjacent communities and the Iowa Department of Natural Resources prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency (FEMA); and
6. Assure that maintenance is provided within the altered or relocated portion of any watercourse so that the flood-carrying capacity is not diminished.

160.11 APPLICATION FOR FLOOD PLAIN DEVELOPMENT PERMIT. To obtain a flood plain development permit, the applicant shall first file an application in writing on a form furnished for that purpose. Every flood plain development permit application shall:

1. Describe the land on which the proposed work is to be done by lot, block and tract, house and street address, or similar description that will readily identify and specifically locate the proposed building or work;
2. Identify and describe the work to be covered by the flood plain development permit;
3. Indicate the use or occupancy for which the proposed work is intended;
4. Indicate the assessed value of the structure and the fair market value of the improvement;
5. Give such other information as reasonably may be required by the Administrator;
6. Be accompanied by plans and specifications for proposed construction; and
7. Be signed by the permittee or an authorized agent who may be required to submit evidence to indicate such authority.

160.12 FLOOD PLAIN STANDARDS. No permit for flood plain development shall be granted for new construction, substantial improvements, and other improvements, including the placement of factory-built homes, within any flood-prone area unless the conditions of this section are satisfied.

1. All Development. All new construction, subdivision proposals, substantial improvements, prefabricated buildings, placement of factory-built homes, and other developments within flood-prone areas shall require:

A. Design or adequate anchorage to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

B. Construction with materials resistant to flood damage;

C. Utilization of methods and practices that minimize flood damages;

D. All electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

E. New or replacement water supply systems and/or sanitary sewage systems designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems located so as to avoid impairment or contamination; and

F. Wastewater treatment facilities and water supply treatment facilities (other than on-site systems) provided with a level of protection equal to or greater than one foot above the 100-year flood level.

G. Subdivision proposals and other proposed new development, including factory-built home parks or subdivisions, located within flood-prone areas are required to assure that:

(1) All such proposals are consistent with the need to minimize flood damage;

(2) All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage; and

(3) Adequate drainage is provided so as to reduce exposure to flood hazards.

2. Storage, Material, and Equipment.

A. The storage or processing of materials within flood-prone areas that are in time of flooding buoyant, flammable, or explosive, or which could be injurious to human, animal, or plant life is prohibited unless elevated a minimum of one foot above the 100-year level.

B. Storage of other material or equipment may be allowed if such material or equipment is elevated a minimum of one foot above the 100-year flood level and not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the time available after a flood warning.

3. **Factory-Built Homes.** All factory-built homes to be placed within flood-prone areas shall be required to be installed using methods and practices that minimize flood damage. For the purposes of this requirement, factory-built homes must be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

4. **Recreational Vehicles.** Recreational vehicles placed on sites within flood-prone areas shall:

- A. Be on the site for fewer than 180 consecutive days, or
- B. Be fully licensed and ready for highway use; or
- C. Meet the permitting and anchoring requirements for factory-built homes of this chapter.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect type utilities and security devices, and has no permanently attached additions.

160.13 APPEALS. The Board of Adjustment shall hear and decide appeals and requests for variances from the flood plain management requirements of this chapter. Where an application for a flood plain development permit or request for a variance from the flood plain management regulations is denied by the Flood Plain Administrator, the applicant may apply for such flood plain development permit or variance directly to the Board of Adjustment. The Board shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Flood Plain Administrator in the enforcement or administration of this chapter. Any person aggrieved by the decision of the Board may seek review by a court of record of such decision, in the manner provided by the laws of the State and particularly by Chapter 414, *Code of Iowa*.

160.14 VARIANCES. In passing upon applications for variances, the Board of Adjustment shall consider all technical data and evaluations, all relevant factors, standards specified in other sections of this chapter, and the following criteria:

- 1. The danger to life and property due to flood damage;
- 2. The danger that materials may be swept onto other lands to the injury of others;
- 3. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
- 4. The importance of the services provided by the proposed facility to the City;
- 5. The necessity to the facility of a waterfront location, where applicable;
- 6. The availability of alternative locations, not subject to flood damage, for the proposed use;
- 7. The compatibility of the proposed use with existing and anticipated development;
- 8. The relationship of the proposed use to the comprehensive plan and flood plain management program for that area;
- 9. The safety of access to the property in times of flood for ordinary and emergency vehicles;

10. The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters, if applicable, expected at the site; and,

11. The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems; streets; and bridges.

160.15 CONDITIONS FOR APPROVING VARIANCES.

1. Generally, variances may be issued for new construction and substantial-improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below highest adjacent grade, providing the requirements of subsections 2 through 5 below have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

2. Variances may be issued for the reconstruction, rehabilitation, or restoration of structures listed on the National Register of Historic Places, the State Inventory of Historic Places, or local inventory of historic places upon determination provided the proposed activity will not preclude the structure's continued historic designation.

3. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

4. Variances shall only be issued upon: (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

5. The City shall notify the applicant in writing over the signature of a City official that: (i) the issuance of a variance to construct a structure below highest adjacent grade will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and (ii) such construction below highest adjacent grade increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this chapter.

160.16 PENALTIES FOR VIOLATIONS. Violation of the provisions of this chapter or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with granting of variances) shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than \$500.00 and, in addition, shall pay all costs and expenses involved in the case. Each day such a violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City from taking such other lawful action as is necessary to prevent or remedy any violation.

160.17 AMENDMENTS. The regulations, restrictions, and boundaries set forth in this chapter may from time to time be amended, supplemented, changed, or appealed to reflect any and all changes in the National Flood Disaster Protection Act of 1973, provided, however, that no such action may be taken until after a public hearing in relation thereto, at which parties of interest and citizens shall have an opportunity to be heard. Notice of the time and place of such hearing shall be published in a newspaper of general circulation in the City. At least 20

days shall elapse between the date of this publication and the public hearing. A copy of such amendments will be provided to the Region VII office of the Federal Emergency Management Agency (FEMA). The regulations of this chapter are in compliance with the National Flood Insurance Program (NFIP) regulations.

GENERAL PROVISIONS AND DEFINITIONS

165.01 PURPOSE. The purpose of this chapter is to provide adequate light and air, to prevent the overcrowding of land, to avoid undue concentration of population, to regulate the use of land, and to promote the health, safety, and general welfare in the City of Clarence, Iowa.

165.02 APPLICATION OF DISTRICT REGULATIONS. The regulations set by this chapter within each district shall be minimum regulations and shall apply uniformly to each class or kind of structure or land, and particularly, except as hereinafter provided:

1. No building, structure, or land shall hereafter be used or occupied, no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all the regulations herein specified for the district in which it is located.
2. No part of a yard, or other open space, or off-street parking or loading space required about or in connection with any building for the purpose of complying with this chapter, shall be included as part of a yard, open space, or off-street parking or loading space similarly required for any other building.
3. No yard or lot existing as of the effective date of this chapter shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this chapter shall meet at least the minimum requirements established by these regulations.

4. Whenever the requirements of this chapter are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standards shall govern.

5. All structures existing, as of the effective date of this chapter and which comply with the terms and conditions of this chapter, shall be considered lawful and be allowed to continue and exist or be reconstructed as they currently exist.

165.03 ESTABLISHMENT OF DISTRICTS; OFFICIAL ZONING MAP.

1. Official Zoning Map. The City shall be divided into districts, as shown on the Official Zoning Map which, together with all explanatory matter thereon, shall be adopted by ordinance. The Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Clerk. If, in accordance with the provisions of this chapter and Chapter 414, *Code of Iowa*, changes are made in district boundaries or other matter portrayed on the Official Zoning Map, such changes shall be entered on the Official Zoning Map promptly after the amendment has been approved by the City Council, with an entry on the Official Zoning Map as follows: "By official action of the City Council, the following changes were made to the Official Zoning Map." (Indicating the changes by ordinance numbers and date of publication.) No amendment of these regulations which involves matter portrayed on the Official Zoning Map shall become effective until after such change and entry has been made on said map.

2. Replacement of the Official Zoning Map. In the event that the Official Zoning Map becomes damaged, destroyed, lost or difficult to interpret because of the nature or number of changes and additions, the City Council may by ordinance adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Official Zoning Map or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Clerk, and bearing the Seal of the City under the following words: "This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted as part of Ordinance No. _____ of the City of Clarence, Iowa." Unless the prior Official Zoning Map has been lost, or has been totally destroyed, the prior map or any significant parts thereof remaining, shall be preserved, together with all available records pertaining to its adoption or amendment.

165.04 RULES FOR INTERPRETATION OF DISTRICT BOUNDARIES. Where uncertainty exists as to the boundaries of districts as shown on the Official Zoning Map, the following rules shall apply:

1. Boundaries indicated as approximately following the centerlines of streets, highways, or alleys shall be construed to follow such centerlines;
2. Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines;
3. Boundaries indicated as approximately following City limits shall be construed as following such City limits;
4. Boundaries indicated as following railroad lines shall be construed to be midway between the main tracks;

5. Boundaries indicated as following shorelines shall be construed to follow such shorelines, and in the event of change in the shoreline shall be construed as moving with the actual shoreline; boundaries indicated as approximately following the centerlines of streams, rivers, or other bodies of water shall be construed to follow such centerlines;
6. Boundaries indicated as parallel to or extensions of features indicated in Subsections 1 through 5 above shall be so construed. Distances not specifically indicated on the Official Zoning Map shall be determined by the scale of the map;
7. Where physical or cultural features existing on the ground are at variance with those shown on the Official Zoning Map, or in other circumstances not covered by Subsections 1 through 6 above, the Board of Adjustment shall interpret the district boundaries;
8. Where a district boundary line divides a lot which was in single ownership at the time of passage of this chapter, the Board of Adjustment may permit, as a special exception, the extension of the regulations for either portion of the lot not to exceed fifty (50) feet beyond the district line into the remaining portion of the lot.
9. Whenever the Council vacates and disposes of a street or alley, adjacent districts shall extend to the centerline of the vacation;
10. Whenever a variance exists between the Zoning Map and the legal description on an amendment to this chapter, the legal description applies.

54. “Street line” means the right-of-way line of a street.

58. “Variance” means a device used by the Board of Adjustment which grants a property owner relief from certain provisions of a Zoning Ordinance when, because of the particular physical surroundings, shape, or topographical condition of the property, compliance would result in particular hardship upon the owner, as distinguished from a mere inconvenience or a desire to make more money and which condition is not of the owner’s own making.
59. “Yard” means an open space on the same lot with a building, unoccupied and unobstructed by any portion of a structure from the ground upward, excepting as otherwise provided herein. In measuring a yard for the purpose of determining the depth of a front yard or the depth of a rear yard, the least distance between the lot line and the main building shall be used. Fences and walls are permitted in any yard, subject to height limitations as indicated herein.
60. “Yard, front” means a yard extending across the full width of the lot and measured between the front lot line and the building or any projection thereof, other than the projection of the usual steps or unenclosed porches. 62. “Yard, side” means a yard extending from the front yard to the rear yard and measured between the side lot lines and the building. On corner lots the yard not designated as front or rear yard shall be considered the side yard. Each corner lot shall have two fronts, a rear, and one side yard. (See chart at the end of this section.)
63. “Zoning/Building Administrator” means the local official responsible for reviewing zoning/building permits and following a determination by the Zoning Board of Adjustment for special exceptions and variances. Decisions of the official

may be appealed to the Board of Adjustment. Permits are issued by the Zoning/Building Administrator.

NONCONFORMITIES

165.10 NONCONFORMITIES. Within the districts established by this chapter there exist lots, structures, uses of land and structures, and characteristics of use that were lawful before these regulations were adopted or amended, but which are prohibited, regulated, or restricted under the terms of this chapter or future amendments. It is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. Further nonconformities shall not be enlarged upon, expanded or extended, or be used as grounds for adding other structures or uses prohibited elsewhere in the same district. To avoid undue hardship, nothing in this chapter shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this chapter and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

165.11 NONCONFORMING LOTS OF RECORD. In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this chapter, notwithstanding limitations imposed by other provisions of the chapter. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, if the lot shall conform to the regulations for the district in which such lot is located. Variance of yard requirements shall be obtained only through the action of the Board of Adjustment.

165.12 NONCONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY). Where at the time of adoption of this chapter lawful use of land exists which would not be permitted by the regulations imposed by this chapter, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

1. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of these regulations.
2. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this chapter.
3. If any such nonconforming use of land ceases for any reason for a period of twelve (12) months, then any subsequent use of such land shall conform to the regulations specified by this chapter for the district in which such land is located.
4. No additional structure not conforming to the requirements of this chapter shall be erected in connection with such nonconforming use of land.

165.13 NONCONFORMING STRUCTURES. Where a lawful structure exists at the effective date of adoption or amendment of this chapter that could not be built under the terms of these regulations by reason of restrictions on area, lot coverage, height, yards, its location

on the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming structure may be enlarged or altered in such a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
2. Should such nonconforming structure or nonconforming portion of structure be destroyed by any means to an extent of more than 50 percent of its replacement cost at time of destruction, it shall not be reconstructed except in conformity with the provisions of this chapter. In addition, it shall be reconstructed on the perimeter as it existed at the time of destruction. Said reconstruction shall begin within one year and be completed within two years of destruction.
3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

165.14 NONCONFORMING USES OF STRUCTURES OR OF STRUCTURES AND PREMISES IN COMBINATION. If lawful use involving individual structures with a replacement cost of \$1,000.00 or more, or of structure and premises in combination, exists at the effective date of adoption or amendment of this chapter, that would not be allowed in the district under the terms of these regulations, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this chapter in the district in which it is located shall be enlarged, extended, constructed, reconstructed, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this chapter, but no such use shall be extended to occupy any land outside such building.
3. If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may be changed to another nonconforming use provided that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use.
4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.
5. When a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for 12 consecutive months or for 18 months during any three-year period (except when government action impedes access to the premises) the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.
6. When nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall not eliminate the nonconforming status of the land. The nonconforming structure or premises shall be reconstructed on the perimeter as it existed at the time of the destruction. Said reconstruction shall begin within one year and be completed within two years of

destruction. Destruction for the purpose of this subsection is defined as damage to an extent of more than 50 percent of the replacement cost at time of destruction. Replacement shall begin within six months of the time of destruction or the nonconforming status shall expire. Said construction shall also be completed within 18 months of the time of destruction or the nonconforming status shall expire.

165.15 REPAIRS AND MAINTENANCE. On any building devoted in whole or in part to any nonconforming use, work may be done on ordinary repairs, provided that the cubic content of the building as it existed at the time of adoption or amendment of this chapter shall not be increased.

165.16 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NONCONFORMING USES. Any use which is permitted as a special exception in a district under the terms of this chapter (other than a change through Board of Adjustment action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.

2. **Structures to Have Access.** Every building hereafter erected or moved shall be on a lot adjacent to a public street, or with access to an approved private street, and all structures shall be so located on lots as to provide safe and convenient access for servicing, fire protection, and required off-street parking.
3. **Erection of More Than One Principal Structure on a Lot.** In any district, more than one structure housing a permitted or permissible principal use may be erected on a single lot, provided that yard and other requirements of this chapter shall be met for each structure as though it were on an individual lot.
4. **Accessory Buildings.** No accessory building may be erected in any required front or side yard and no separate accessory building may be erected within 10 feet of a main building. Where a garage is entered from the alley, it must be kept 15 feet from the alley line. No accessory building shall be closer than five feet to the rear or side lot line. No accessory building shall be used without occupancy of the principal building.
5. **Height Limits.** Chimneys, church steeples, cooling towers, elevator bulkheads, fire towers, monuments, stacks, stage towers or scenery lofts, tank, water towers, ornamental towers, spires, wireless tower, grain elevators, or necessary mechanical appurtenances are exempt from the height regulations provided in specific district regulations.
6. **Projections.** Sills, belt courses, cornices, and ornamental features may project only two feet into a required yard.
7. **Fire Exits and Chimneys.** Open fire escapes, fireproof outside stairways and balconies opening upon fire towers, and the ordinary projections of chimneys and flues into a rear yard for a distance of not more than 3½ feet when so placed as not to obstruct light and ventilation, may be permitted by the Zoning/Building Administrator.
8. **Porches.** Open, unenclosed porches may extend 10 feet into a front yard.
9. **Terraces.** Terraces which do not extend above the level of the ground (first) floor may project into a required yard, provided these projections are distant at least two feet from the adjacent side lot line.
10. **Service Lines.** Nothing in these regulations shall have the effect of prohibiting utility service lines.

11. Zero Lot Line, Single-Family Attached Dwellings. The following provisions shall apply to all Zero Lot Line, Single-Family Attached Dwellings:

- A. Such dwellings shall be constructed side by side across the zero lot line and no constructed parallel to the zero lot line.
- B. Each dwelling unit shall be provided with separate building access.
- C. All zero lot line, single-family attached dwellings shall have a common dividing wall on the zero lot line constructed of a fire resistant material equivalent to or greater than one inch of gypsum wallboard.
- D. Each dwelling unit shall be provided with a separate sanitary sewer main and water main from the municipal sanitary sewer and water main, but sanitary sewer mains may be laid side by side in a common trench along the zero lot line and so may the water mains.
- E. Each dwelling unit shall have its own electrical system separately metered and its own natural gas service, if any.

12. Fences and Walls. The regulations set forth in this subsection regulate the placement of fences in all districts:

- A. Materials Regulated. Fences and walls shall be constructed of material commonly used for landscape fencing, such as masonry block, lumber, chain link or natural plantings, but shall not include corrugated sheet metal, barbed wire, salvage material or be electrified unless otherwise allowed in this code.

Fences erected along any lot line shall be constructed in such a manner so as to place all posts, poles, braces and supports on the side of the fence facing the property owned or occupied by the builder of the fence. In addition, the finished surface of any fence shall face toward adjacent properties and street frontage.

A fence or wall not exceeding four feet in height is permitted within the limits of front yards; however, it shall be at least two feet off the sidewalk which parallels the street. Fences above six feet but less than seven feet may be allowed by special exception and no other variances of fence heights shall be allowed on residential properties. In the case of retaining walls supporting embankments, the above requirements shall apply only to the part of wall above the ground surface of the retained embankment.
- D. Corner Lots. Fences located on the front and side property lines abutting a street may not exceed three feet in height. If the fence does not provide openings of at least 70 percent in area of the vertical surface to permit the transmission of light, air or vision through the vertical surface at a right angle, a 25 foot visual clearance zone must be observed at all street intersections. A 10 foot visual clearance zone must be observed when a corner front or side property line abuts an alley.
- E. Commercial-Industrial. In commercial and industrial districts, nonresidential fences may be up to seven feet in height around the property, provided that all fences located in a front yard are constructed of see-through

material. If barbed wire is needed for security reasons, the height of the fence may be extended another foot to a maximum height of eight feet. However, the barbed wire cannot be closer than seven feet to the ground, and may not overhang any public right-of-way. Any fences higher than these maximum heights or constructed of material other than see-through material in front yards must be approved by special exception by the Board of Adjustment.

F. Grades. Grade for determining the maximum height above grade for fences and walls:

- (1) For a fence or wall along a street right-of-way, grade shall be the highest point of the pavement lying between the intersection of the centerline and a projection of the side lot lines.

An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning/Building Administrator from whom the appeal is taken certifies to the Board of Adjustment after the Notice of Appeal is filed with the Administrator, that by reason of facts stated in the certificate, a stay would, in the Administrator's opinion, cause imminent peril

to life and property. In such case proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Adjustment or by a court of record on application, on notice to the Zoning/Building Administrator from whom the appeal is taken and on due cause shown.

3. Variance, Conditions Governing Application; Procedures. To authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this chapter would result in unnecessary hardship. A variance from the terms of this chapter shall not be granted by the Board of Adjustment unless and until:

A. A written application for a variance is submitted demonstrating that:

(1) Special conditions and circumstances exist which are peculiar to land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district;

(2) Literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter;

(3) The special conditions and circumstances do not result from the actions of the applicant;

(4) Granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, structures, or buildings in the same district.

No nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted or nonconforming use of land, structures, or

buildings in other districts may be considered grounds for the issuance of a variance.

B. The Board shall fix a reasonable time for the hearing of the variance, and give not less than 7 or more than 20 days' public notice in a paper of general circulation in the City thereof, and decide the same within 30 days.

C. The public hearing shall be held. Any party may appear in person, or by agent or by attorney.

D. The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.

E. The Board of Adjustment shall further made a finding that the granting of the variance will be in harmony with the general purpose and intent of this chapter, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare. In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this chapter. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of these regulations and punishable under this chapter. Under no circumstances shall the Board of Adjustment grant a variance to allow a use not permissible under the terms of this chapter in the district involved or any use expressly or by implication prohibited by the terms of this chapter in said district.

F. The concurring vote of the majority of the members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Zoning/Building Administrator, or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter, or to effect any variation in the application of this chapter.

G. The Council may provide for its review of variances granted by the Board of Adjustment before their effective date. The Council may remand a decision to grant a variance to the Board of Adjustment for further study. The effective date of the variance is, in such case, delayed for 30 days from the date of the remand.

165.62 APPEALS FROM THE BOARD OF ADJUSTMENT. Any person or persons, or any board, taxpayer, department, board or bureau of the City, or other areas subject to this chapter aggrieved by any decision of the Board of Adjustment may seek review by a court of record of such decision, in the manner provided by the laws of the State and particularly by Chapter 414, *Code of Iowa*.

ENFORCEMENT AND AMENDMENTS

165.70 ADMINISTRATION. All questions of interpretation and enforcement shall be first presented to the Zoning/Building Administrator, or that person's assistant, and such questions shall be presented to the Board of Adjustment only on appeal from the decision of the Zoning/Building Administrator, and recourse from the decisions of the Board of Adjustment shall be to the courts as provided by law and particularly by Chapter 414, *Code of Iowa*.

165.71 AMENDMENTS. The regulations, restrictions, and boundaries may, from time to time, be amended, supplemented, changed, modified, or repealed, provided that at least 7 days' notice of the time and place of such hearing shall be published in a paper of general circulation in the City. In no case shall the notice be published more than 20 days prior to the hearing. The regulations, restrictions, and boundaries may, from time to time, be amended, supplemented, changed, modified, or repealed. Notwithstanding Section 414.2, as a part of an ordinance changing land from one zoning district to another zoning district or an ordinance approving a site development plan, the Council may impose conditions on a property owner which are in addition to existing regulations if the additional conditions have been agreed to in writing by the property owner before the public hearing required under this section or any adjournment of the hearing. The conditions must be reasonable and imposed to satisfy public needs which are directly caused by the requested change. In case, however, of a written protest against a change or repeal which is filed with the City Clerk and signed by the owners of 20 percent or more of the area of the lots included in the proposed change or repeal, or by the owners of 20 percent or more of the property which is located within 200 feet of the exterior boundaries of the property for which the change or repeal is proposed, the change or repeal shall not become effective except by the favorable vote of at least three-fourths ($\frac{3}{4}$) of all the members of the Council. The protest, if filed, must be filed before or at the public hearing. Proposed amendments not recommended by the Planning and Zoning Commission shall become effective only upon a favorable vote of three-fourths ($\frac{3}{4}$) of the members of the City Council. All zoning amendment application forms shall be approved by resolution of the City Council.

165.72 VIOLATION. Failure to comply with the provisions of this chapter or with any of its requirements (including violations of conditions and safeguards established in connection with grants of variances or special exceptions) shall constitute a violation of this chapter. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City from taking such other legal action as is necessary to prevent any violation.

165.73 SCHEDULE OF FEES, CHARGES, AND EXPENSES. The City Council shall establish a schedule of fees, charges, and expenses and a collection procedure for zoning district changes, zoning permits, appeals, and other matters pertaining to this chapter. The schedule of fees shall be posted in the office of the Zoning/Building Administrator and the City Clerk and may be altered or amended only by the City Council, as recommended by the Planning and Zoning Commission. Until all applicable fees, charges, and expenses have been paid in full, no action shall be taken on any application or appeal.

165.74 COMPLAINTS REGARDING VIOLATIONS. Whenever a violation of this chapter occurs, or is alleged to have occurred, any person may file a written complaint. Such

complaint, stating fully the causes and basis thereof, shall be filed with the Zoning/Building Administrator. The Administrator shall record properly such complaint, immediately investigate, and take action thereon as provided by this chapter.
